 - **Last Name:** This is the employee's last name.
 - **DOB** This is the employee's date of birth. DOB must be entered in a MM/DD/YYYY format.

If the system is unable to verify your information the issue could be that the employee's information was inaccurately entered at the time of enrollment. To resolve this, call customer service and provide the employee ID so that PPL can verify the demographic information on file.

❖ Step 3: User Information

1. Complete the following fields.
 - **Username:** PPL suggests that you use the first letter of your first name and your last name.
 - Ex. Mary Poppins = MPoppins
 - **NOTE: If the user name you selected is already in use you will need to select a different username.**
 - **Password:** Your password must be at least 6 characters long and contain at least 1 numerical character, 1 capitalized character, and 1 lowercase character. Your password will be case sensitive.
 - **Confirm Password:** Retype the password you created.
 - **Email Address:** Your email address is an optional field. PPL will use this to send information pertaining to your timesheets to your email account. Note: If you provide an email address you will receive an email confirmation of your username and password.
 - **Security Questions:** Choose three questions from the dropdown menu. Enter the answers to these questions in the data field next to it.
 - These questions provide a layer of security to protect your privacy so that only YOU can change your user registration information.

The *Time Period* section is where you will enter in the time you worked for the pay period.

- If you didn't work on one day, leave the fields blank for that day.
- 1. Select the service(s) performed from the Service dropdown menu.
 - Complete this step for each day a day worked.
- There is also the option to select a Common Service (above the *Time Period* section). This option can be used by employees who provide the same service throughout the entire pay period.
 - The Common Service dropdown lets you populate every line of the timesheet at once instead of filling in each day individually.
 - The Common Service dropdown is optional; you do not have to use this feature.
 - If you choose not to use the *select common service* feature, you must enter in the service type for each of the days worked.

How-to Guide for the BetterOnline™ Web Portal

- If there is a problem with your timesheet that would cause it to not be paid, then the Web Portal will not allow the timesheet to be submitted for approval until the problem is fixed.

Examples:

- Overlapping time
 - Missing paperwork
 - Missing employee rates
- On the top of your timesheet you will see red alerts that tell you what is wrong with your timesheet. If you do not understand any or even one of the messages, please call customer service.
 - In the example below, on 09/03/2018 a service was not selected.

- If you feel that any of the alert messages in red are incorrect, please call customer service.
 - If you believe they are correct, please submit the missing information to PPL as soon as possible so that PPL staff can enter it into our system. Then resubmit your timesheet for approval.
- Once you have successfully submitted your timesheet for approval, it will be up to the participant or representative to approve the timesheet.
 - You can monitor the approval status by searching on your timesheets and reviewing the status.
 - If the timesheet is in the SUBMITTED status it has not been approved.
