

COMING SOON! DECEMBER 2020

Time4Care™ and Electronic Visit Verification (EVV)

In **December 2020** you will be required to start using **Time4Care™** to enter time and it can be used to approve time.

How-to guides and videos are open to you to view at:
www.publicpartnerships.com/tools/time4care-evv/

Throughout November 2020 – Online resources will become available for you to view and access for more information.

December 2020 – Time4Care will be required for time entry and may be used for time approval if desired.

Ongoing – These resources will be updated as the app is updated and changes are made within your program.

WHAT IS EVV AND WHY DO WE HAVE TO USE IT?

The 21st Century Cures Act federal law requires an Electronic Visit Verification (EVV) system to be used for clocking-in and clocking-out when giving services for Medicaid recipients. This system also records the location of the person clocking-in or -out. It does not record the location during the shift or at any other time.

EVV helps make sure that those people needing services are getting what they need, and that person's Medicaid money is being used appropriately.

WHAT DO WE USE FOR AN EVV SYSTEM?

Your program is using PPL's Time4Care™ mobile application (app), which can be used on an Android or Apple smart phone or tablet, as long as it has location services for GPS.
