

Time4Care

PPL's time entry and approval mobile app

You are busy. Sitting down at a computer to enter or approve timesheets is not always convenient. Even worse is having to rely on error-prone paper timesheets and then fax or mail them to us.

We recognized these challenges over five years ago and developed our industry-leading mobile app, Time4Care™. It offers you a quick and easy, “on-the-go” option for timesheet entry, management, and approval. The app is compatible with both Apple and Android devices.

Time4Care helps ensure program participants maintain care and support.

Time4Care helps pay your care/support workers on time by displaying any errors when the timesheet is submitted, allowing ample time for correction prior to payroll.
