Special Situations

- Working Overnight:** When your employee works overnight, there are special instructions for filling in the overnight shift on the timesheet. Your employee must complete one line for services provided before midnight and another line in the next day for services provided after midnight.

For example, say your employee worked overnight Thursday night from 8:00 PM to 6:00 AM on Friday morning. Enter the start time as 8:00 PM as seen below. Enter the end time for that day as 11:59 PM. Now, your employee did not finish working at 11:59 PM, they finished working on Thursday at that time. Enter the rest of your employee's time on Friday as shown below – 12:00 AM to 6:00 AM.

Thu	08	00		11	59	03:59
Fri	12	00		06	00	06:00

- Working multiple times in one day.** Many employees work with someone several times in a day. Your employee can enter as many in and out times as they want but must enter each on a new line.

For example, say your employee started working at 9:00 AM and stopped at 12:00PM; they left to run an errand, came back at 2:00 PM and stayed until 5:00 PM. Your employee would enter one line for each time they were providing services as shown below. If they came back a third time that evening, your employee would need to move onto another timesheet.

Mon	09	00		12	00	03:00
	02	00		05	00	03:00
